## **2011 UPGRADE INFORMATION AND APPLICATION FORM**

Please note the **change in fees** to more accurately reflect assessing costs. ALSO NOTE APPLICATION DEADLINE OF **MARCH 15**.

To request upgrade you must return the form attached with the appropriate fee for the grade desired. Verbal requests cannot be honored. Please make your check payable to: **Michigan Referee Committee** and mail to the above address.

Please do not apply unless you have **already** completed and mastered the level and minimum number of games required. An agreement between AYSO and USSF regarding game count was reached in October 2005 that now allows AYSO games to be counted for upgrade.

After receiving your upgrade request, you will be assigned an assessor. At that time you must contact the assessor to arrange your schedules. Keep in mind that you can delay your upgrade if the game proves too easy a test. However, the assessments for upgrade must be completed in the year that you request Upgrade. **You will not be able to carry over into the next year.** It will also be to your advantage to make sure your crew is full and prepared for a possible assessment on these dates.

We wish to give you every opportunity to show us your best performance. We are confident you wish to give your best in every game, assessed or not. Any reports of substandard efforts in other games by a candidate could negatively affect your upgrade as well. The proof of the referee's true ability is in the game itself, when the action is hot after the first whistle is blown. Other things are important but none so much as the game itself.

**After completing and passing the assessment and taking the fitness test you must make plans to attend the State Referee Recertification Clinic (even grade 7 Upgrade candidates) held in December 2011. You will be notified after you have completed and passed the required assessments.**
